WORK EXPERIENCE

Front-end intern
Insight-Velocitee

02/2024 - 05/2024   *Nigeria, Lagos*

Insight Publicis is a creative community of storytellers, culture shapers and collaborators.

Achievements/Tasks

- Developed and maintained multiple web projects using **Next.js** and various libraries, ensuring efficient front-end architecture.
- Translated **Figma** designs into responsive and pixel-perfect web pages, enhancing user experience.
- Utilized **Git** and **GitHub** for version control and collaboration, managing remote tasks and submitting deliverables during work-from-home periods.
- Updated progress on tasks using **Jira** , ensuring clear communication and status updates for team members and superiors.
- Ensured all projects were fully **mobile responsive** , optimizing for seamless user interaction across devices.

Front-end Intern
Insight-Velocitee

02/2023 - 03/2023

Insight Publicis is a creative community of storytellers, culture shapers and collaborators.

Achievements/Tasks

- Gained hands-on experience with **React** and **Tailwind CSS** , focusing on building responsive and modern web interfaces.
- Completed various training and tutorials under the guidance of senior developers, deepening my understanding of **front-end technologies** .
- Collaborated with the team to learn **Git** version control processes and industry-standard best practices for web development.
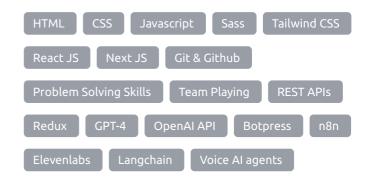

EDUCATION

Information Technology
Pentecost university

10/2022 - Present   *Accra, Ghana*

SKILLS

HTML | CSS | Javascript | Sass | Tailwind CSS

React JS | Next JS | Git & Github

Problem Solving Skills | Team Playing | REST APIs

Redux | GPT-4 | OpenAI API | Botpress | n8n

Elevenlabs | Langchain | Voice AI agents

PERSONAL PROJECTS

Voice AI Customer Support Agent
- Created a voice-enabled assistant that simulates real-time conversations using speech-to-text and GPT-4. Designed for use in AI customer support systems.

Lead Automation Workflow
- Developed an automated flow using n8n to capture, qualify, and store leads from chatbot interactions into a Google Sheet. Also connected to Calendly for scheduling appointments.

AI Legal Chatbot Platform
- A GPT-4-powered chatbot built using Botpress and Supabase that answers legal questions and assists users with legal document generation. Integrated Stripe for subscriptions and deployed via Cursor.

Univeristy sport website
- A detailed website with multiple pages showcasing different aspects of the sports academy of a university

ACHIEVEMENTS

ALX AI Career Essentials (02/2025 - 03/2025)
An intensive foundational course by ALX focusing on practical applications of AI in business and technology. Covered key concepts in machine learning, prompt engineering, large language models (LLMs), ethical AI use, and AI-powered productivity tools like ChatGPT and GitHub Copilot.
